

Key points of CSR at Damage Care Europe:

The three Ps, People, Planet, and Profit, form the basis of our business operations. The **people** who work for us have become specialists through the damage repair trade. to disseminate, to delve into materials and products, and special training and to take courses in the field of damage repair. To make even more people happy create with a perfect result.

We perform sustainable repair: we do not throw parts away. We choose to retain and repair the damaged object so that the customer no longer sees the damage. **By working circularly , you also put less strain on the earth.**

By carrying out repairs properly, you reduce the environmental impact and it is also more cost-effective. Repair is significantly cheaper than completely replacing, for example, a piece of furniture, a countertop, or a floor.

By avoiding demolition and breaking work, you cause less nuisance for people and the environment.

our **profits** in our people and the environment.

Investing in people by letting them take training and courses themselves that aligning with their profession. As a result, we notice that people become even better at their jobs. We invest in the environment by driving green, generating our own electricity, and ensuring that we place less strain on the environment. But also through sponsoring local associations or foundations.
